

# E-45

# Wheeler Reeler

### Easy Maintenance

Cylinder cap allows for easy access + industry first bleeder port allows for simple air removal from the hydraulic system.

### Bright LED Lights

### Electric Brakes & Breakaway Kit

### Standard Color

White & black are stock colors. Other colors can be used with an assessed charge. We proudly use Sherwin-Williams® paint

### Protected Hoses & Wiring

Hydraulic hoses, brake & lighting wires are tucked inside the trailer frame for increased reliability and less down time due to wear

### Hitch Options

Pintle, 2 5/16 ball or 3" pintle

### Elec. Hydraulic Self Loading System

Raise & lower the hydraulic cylinders with the touch of a button with the electric motor option. Equipped with a magnetized remote which can be placed on any metal surface on the trailer for easy access. All housed within a toolbox for increased durability & longevity.

## SPECIFICATIONS

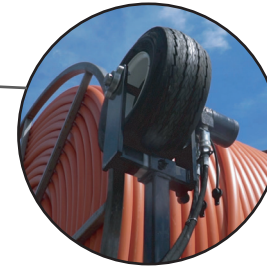

Payload Rating	4,500 lbs	Trailer Weight	1,250 lbs
Reel Diameter (max.)	96 in / 8 ft	Trailer Length	112 in / 9.3 ft
Reel Width (max)	54 in / 4.5ft	Trailer Width	86 in / 7.16 ft

## ACCESSORIES

- Hydraulic Rewind
- Hydraulic Power Pack
- Chock Block Holder
- Chock Blocks
- Mounted Locate Wire Stand
- Mud Flaps

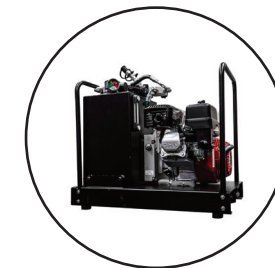

# Wheeler Reeler

## Mud Flaps

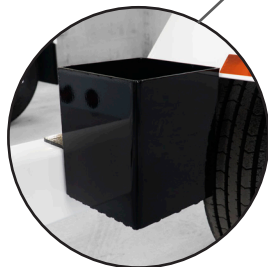

- Hydraulic rewind re-spools cable with very little effort
- Easy adjustment to spool sizes
- Self contained hydraulic unit
- Variable speed control
- Rewinds in either direction
- Torque of 360 lb @ 1000 psi
- Rated up to 8,500 lbs spools

## Hydraulic Rewind

## Hydraulic Power Pack

## Chock Block Holder

## Mounted Locate Wire Stand

- Fuel efficient, high output operation
- Exceptionally quiet
- Easy to use & maintain
- Lower emissions, same power output
- Heavy duty recoil starter allows for easy starting
- Engine - 6.5 HP Honda
- Pump - 5.0 GPM @ 3600 Relief
- Max Hydraulic Pressure - 2000 PSI
- 10 Micron Return Filters, 100 Mesh Tank Strainer
